Who is Agencia Global?

Agencia Global will provide airfares at lower costs than any existing B2B platform today. By utilizing advanced technologies and automation during flight search, booking, fraud scrubbing, ticketing, and post sale customer support, Agencia Global shares its cost savings and passes on the margin to the agent. Fares provided by Agencia Global to travel agents will come with no additional fees, or markup. Agencia Global gives travel agents the freedom to apply markup or commission to the fare, and claim it all! Once the agent chooses their desired flight and markup, the passenger record is automatically scrubbed for fraud and ticketed immediately. What's more, at the end of the month, agenciaglobal.com reconciles all transactions and pays the travel agents their well-deserved commissions.
