The Islands of Tahiti

Tahiti is perhaps the last Eden on Earth. The land we call home is, for us, a constant source of inspiration. It's a land of calmness and relaxation. Legendary natural beauty and serenity captures forever the hearts of even the most seasoned travelers—just as it did with Bougainville, Cook and Gauguin to name a few. Privacy and seclusion draw honeymooners to unspoiled beaches and calm lagoons. Treasures, from black pearls to vanilla beans, to the smiles of a warm and joyful people, give a glimpse into the essence of Polynesia—a lifestyle that is culturally rich and diverse, attuned to its environment, safe and welcoming.

118 islands and atolls rise in serenity from the heart of the South Pacific, each with a character as unique as its shape, to form the land of French Polynesia. From the more renowned Society Islands to the more remote Marquesas, a great diversity of experiences awaits. Diving among bright rainbow fish in crystal clear lagoons. Hiking in lush tropical forests. Sunning on powdery clean white or exotic black sand beaches. Dining on cuisine influenced by French, Asian and Polynesian tastes.
