

## **Cruise the Galápagos aboard the *Reina Silvia Voyager***

### **Meet our new custom-built catamaran**

With wildlife widely undisturbed by humans, Galápagos cruising can sometimes feel like stepping backwards in time, but aboard a modern vessel like our custom-built *Reina Silvia Voyager* catamaran, the experience feels entirely 21st century. 16 passengers can cruise together and let the CEO Naturalist Guide introduce you to all the wonders of these islands. Enjoy the view from a spacious sun deck, a private patio (available with most cabins), or from the Jacuzzi. This is the Galápagos like Darwin never could have imagined.
