SAFE TRAVELS, WILD HEART

St. Kitts

*at bluboho, we believe in following your heart—wherever it dares to go. nestled in the warmth of the caribbean, **st. kitts** is a place where time slows, nature leads, and every path feels like a calling. this island, both rugged and lush, reminds us of the beauty in the unpolished, the magic in the untamed. inspired by **saint christopher**, the patron of travellers, and the stamps that mark our journey, we created this collection to honour the stories we collect when we move with intention. each piece is a keepsake of sunshine, salt air, and the quiet courage to follow your heart wherever it may lead.*

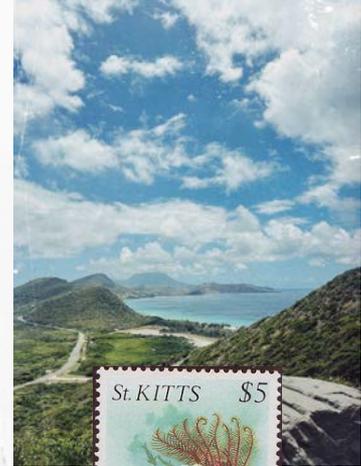

Maggie's Story

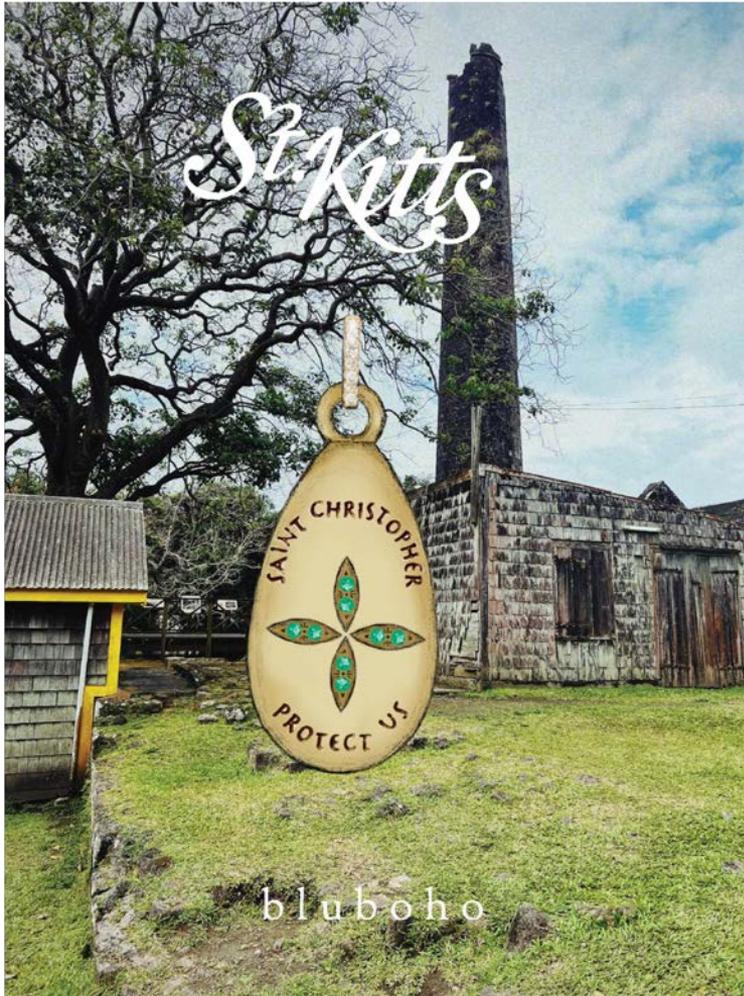

when we began our journey with St. Kitts, I reflected on my own travels, and it felt like kismet. the island's name is drawn from St. Christopher, patron saint of travel, which brought me back to my own early adventures out in the world. my mum would send me off with a St. Christopher charm tucked into my hand before every journey, a tiny promise of protection, and a token to ensure and that I'd always find my way. from the moment I set foot on the island, St. Kitts wrapped me in her spell: emerald hills rolling into turquoise waters, salt air rich with stories, and the kindness of the locals that felt more like family than strangers. from this, we dreamed up talismans to carry that spirit wherever you roam, a St. Christopher charm is, at its heart, one such keepsake: a spark of guidance, a quiet blessing for happy travels and safe returns; a piece to anchor you in beauty, connection, and the courage to follow your heart home.

st. kitts protection charm - 10k yellow gold, diamonds, emeralds

inspired by the patron saint of travellers, the st kitts protection charm is a modern talisman for safe passage: for the journey, the safe return, and all that guides you in between. St Kitts, with its warmth, its residents who feel more like friends than strangers, and the pride of the story behind its name, beats at the heart of this piece. somewhere in its making is the memory of a charm pressed quietly into a hand before every departure, a golden promise that the way forward, and the way home, would always be found.

etched with the words “saint christopher protect us” and adorned with celestial diamonds, each shimmering detail is cast in 10k solid gold, calling on protection and the unseen paths that shape our lives. a star-kissed emerald cross blooms at its centre, a nod to the rugged beauty and emerald hills on the island, while the back carries a gentle blessing: “may your path be open & the stars bring you home.” finished with a diamond-set floating bail, it moves with you through every sea-bound and soul-bound adventure, a quiet reminder that you are always guided.
